

# HEY AMC & REGAL...

# WOMEN ARE NOT WORTH LESS\$

Do **YOU** think women should be paid less than men?

- **93% of Americans** believe that women should be **paid equally** to men for **comparable work...**
- Yet the **women who bring popcorn and candy** to this movie theatre are paid **26% less than the men** who do similar work at the same company!
- What company, in 2017, would **discriminate against women** like this? It's a division of **\$19 Billion Performance Food Group** (NYSE: PFGC), called **Vistar**.

"I make \$12.29/hour as a selector at Vistar, less than many selectors who have less experience and as much as \$9/hour less than my male counterparts. After 15 years, I have had enough. For this reason, I decided to support my coworkers' efforts to organize a union. Vistar broke the law and so we went on strike for a more than a month. My coworkers and I will not quit until our rights are respected."

– *Becky Hernandez, 15-year employee with Vistar/Marjack. Becky, 50, has raised three children as a single mother.*
